$5M+ raised | 25+ hires | 10,000+ community members reached
Building ecosystems & teams at the AI frontier | Working towards abundant, safe intelligence

"The frontier is closer than you think."

WORK EXPERIENCE

Independent San Francisco, CA — Jul 2026 – Present
Fractional Chief of Staff & Ecosystem Lead

- Run 10+ events & dinners, coach dozens of founders and fellows, and make intros for orgs like Renaissance Philanthropy & Topology Ventures; built AI automations with Claude Code that save the teams tens of hours a week.
- Shipping 10+ open-source AI projects to GitHub using LLM SDKs & APIs, including: GiveBetter, an agentic database rating hundreds of nonprofits on cost-effectiveness; AI 2026, a 100-page report on AI's trajectory; and RhysBot, a model trained on a 10 MB personal corpus (nanochat from scratch + Qwen fine-tune).

Roote San Francisco, CA — Jan 2022 – May 2026
Founder & Executive Director

- Founded a 501(c)(3) and raised $1M from five funders; managed a $250K/yr budget and ran board meetings & funder updates; built and hired a 10-person startup studio, then narrowed strategy to education.
- Launched the Roote Fellowship & scaled to 250+ ambitious young fellows across 9 cohorts. Early fellow successes: Daylight Computer, The Residency accelerator, White House OSTP, The Curve Conference, 3 YC, 10+ full-rides to T20 colleges.
- Launched the How Everything Evolved YouTube channel & grew it to 89 videos, 17k subs, and 700k views.

MIT Media Lab, Digital Currency Initiative Cambridge, MA — Sep 2018 – Dec 2019
Head of Community & Societal Impact

- Served as de facto chief of staff to the Executive Director: ran leadership meetings, OKRs and offsites, drafted executive communication to funders, and co-led $2M/yr in fundraising partnerships (+25%).
- Founded the Cryptoeconomic Systems journal (MIT Press) and its conference, a bitcoin security initiative, and MIT's first Blockchain Ethics class (co-taught to 20 MIT and Harvard grad students).
- Grew the developer, research and student community: four 500-person events, weekly research meetings, and a newsletter and X account (0 → 3,000+ subscribers); helped run the MIT Bitcoin Club and student blockchain and Effective Altruism clubs.

ETHDenver Denver, CO — Jun 2017 – Aug 2018
Co-Founder & Ecosystem Lead

- Built my Ethereum network from scratch (founders, protocol teams and VCs) to launch the flagship hackathon in a few months: 1,500 hackers, 100+ speakers & workshops, and $600K in sponsors & partnerships.
- Ran the hackathon end to end with a team of 20 organizers and volunteers, owning the budget & run of show.
- Helped drive Ethereum developer adoption from 1k to 5k engineers through various community programs: MC'ing & speaking for ETHGlobal, empowering university ambassador programs, hosting a podcast, running Telegram & Discord channels, and leading the Systems & Society track at Devcon.

Edify Technologies Denver, CO — May 2012 – Apr 2017
Co-Founder & CTO

- Grew a college summer project into a startup—hired and led a cross-functional engineering, marketing & GTM team, which shipped four music apps with 300,000+ downloads, 2 million+ songs created, and features by Google & Apple.
- Synthesized 500+ customer conversations, user feedback and Mixpanel data to ship dozens of product roadmap updates.
- Earned $900,000 in NSF grants, raised $550,000 from VCs, and selected for the 2015 Techstars Boulder accelerator class.

EDUCATION

Carleton College Northfield, MN — Class of 2013
B.A. in Computer Science, Magna Cum Laude

OTHER

250+ books read · 20k+ Anki cards · 200+ blog posts
