Rhys Lindmark

San Francisco, CA

Energizer bunny & founder type who likes captaining teams to do great work at the frontier.

EXPERIENCE

Independent — San Francisco, CA — Jul 2026 – Present

Fractional Chief of Staff & Ecosystem Lead

- Contracting with Renaissance Philanthropy & Topology Ventures to run 10+ events, develop AI database automations to save hundreds of hours of time, coach dozens of founders & fellows, and make high EV intros.
- Shipping 10+ AI experiments like AI 2026, a 100-page report, & RhysBot, a multimodal model fine-tuned on me

Roote — San Francisco, CA — Jan 2022 – May 2026

Founder & Executive Director

- Founded a 501(c)(3), raised $1M from five funders, built a startup studio team, then refocused on education.
- Launched the Roote Fellowship & scaled to 250+ ambitious young fellows.
  Early fellow successes: Daylight Computer, The Residency, White House OSTP, 3 YC, 10+ full-rides to T20 colleges.
- Launched the How Everything Evolved YouTube channel & grew it to 89 videos, 17k subs, and 700k views.

MIT Media Lab, Digital Currency Initiative — Cambridge, MA — Sep 2018 – Dec 2019

Head of Community & Societal Impact (served as Executive Director's Chief of Staff)

- Co-led fundraising ($2M annually, +25%) and ran org operations (offsites, OKRs).
- Initiated and co-taught the first-ever class on Blockchain Ethics to 20 graduate students from MIT and Harvard.
- Founded an academic journal with MIT Press, then hired and supervised a managing editor.
- Grew community by running four 500-person events; started newsletter & X from scratch to 3,000+ subscribers.

ETHDenver — Denver, CO — Jun 2017 – Aug 2018

Co-Founder & Ecosystem Lead

- Created the flagship ETH event in just a few months—built a network on the tech frontier to attract top engineering talent & VCs, drawing 1,500 hackers, $600,000 in sponsorships, and 100+ speakers. Ran the event end to end.

Edify Technologies — Denver, CO

Co-Founder & CTO — May 2012 – Apr 2017

- Grew a college summer project into a startup—hired and led an engineering & GTM team, which shipped four music apps with 300,000+ downloads, 2 million+ songs created, and features by Google & Apple.
- Earned $900,000 in NSF grants, raised $550,000 from VCs, and selected for the 2015 Techstars Boulder class.

EDUCATION & OTHER

Carleton College, Northfield, MN — Class of 2013

B.A. in Computer Science, Magna Cum Laude

Reading. I love reading. I read dozens of books each year. I remember their ideas with flashcards. I've made 20k thus far.
Writing. I love writing. My blog posts have over 100,000 views. I am turning How Everything Evolved into a book.

1,000+ miles backpacked | 1,000+ days of meditation | 3x frisbee captain & champion | 15k+ albums listened to

"How you do anything is how you do everything."
"The frontier is closer than you think."
